

NG BAILEY ANNOUNCES FIFTH ANNUAL SUSTAINABILITY REPORT

Leading Engineering, IT and Facilities Services business, NG Bailey, has released its fifth annual sustainability report following a successful year of carbon reduction.

The report details the company's successes in sustainability and demonstrates ways in which it remains committed to a sustainable future.

Produced as two separate documents, one report looks at the company's sustainability goals and future plans, while the other gives an insight into the sustainability offering available to customers.

In 2010, NG Bailey put in place its Target 2012 sustainability programme, committing to reduce costs, carbon, waste to landfill and water by 2012.

The campaign has played a significant role in the group's carbon reduction, owing to a 13 per cent carbon reduction throughout the organisation's operations and an 18 per cent CO₂ reduction in its estate buildings already. This success puts the company in a strong position to achieve its goal of a 20 per cent CO₂ reduction by 2012.

Sustainability director, Cal Bailey, plays a pivotal role in the sustainability of the company and is delighted with the results that NG Bailey has seen so far.

He said: "It is exciting to be part of a company that has so much vision. Sustainability is vital for future growth and success and NG Bailey is at the forefront of new processes and technologies.

NG Bailey's 2011 Sustainability Report is available for download at www.ngbailey.com/sustainabilityreport.

Notes to Editors

NG Bailey is one of the UK's leading independent engineering, IT and facilities services businesses with a deserved reputation for excellence. NG Bailey offers integration from the outset of a project, from planning and design through the supply chain, to off-site manufacture, installation and maintenance. The core offering includes engineering, IT services, rail and facilities services expertise.

As a market leader, the £400m turnover company is committed to offering tailored and innovative solutions and has a proven track record in doing so in a broad range of market sectors. NG Bailey's 3,000 people are at the heart of the organisation and it is recognised that the company has one of the industry's foremost apprenticeship schemes. www.ngbailey.com
